FIRST FOR SERVICE EVERY TIME

We consistently win awards for our outstanding service levels. Your assurance that, with WF, we won't let you down

This professional range of industrial plugs and sockets utilise screwless terminal connections and can be used in a wide variety of commercial and industrial applications which provide the following time and cost saving benefits:

- Maintenance free terminals.
- Shock and vibration resistant allowing minimal down time.
- Four point twist lock.
- Self cleaning contacts.
- Chemical resistant and corrosion free terminals.
- Re-usable.
- Screwless terminal connections.
- Quick to install.
- Automatic cable clamp.
- Complies to EN 60309/2 and BS 4343 and rated IP44.

Ideal for use on building sites, dockyards and food production industries.

In order to prevent products with different voltages from being connected to each other, the earth socket tube is placed in a different 'clock' position according to voltage and frequency. This clock position is determined by looking at the socket outlet from the front, with the key way at the bottom. Unless otherwise stated all frequencies are 50-60Hz.
